

**FOR IMMEDIATE RELEASE**

## Parallon's Business Performance Group Receives the Ontario Systems' Hall of Fame Award for Innovation

**NASHVILLE, TN – January 12, 2012**—Parallon Business Solutions is pleased to announce its Business Performance Group was selected as the recipient of the Ontario Systems' Hall of Fame Award for Innovation. Ontario Systems chooses an annual recipient that has differentiated themselves in the marketplace through creative new strategies and services made possible by implementation of Ontario Systems products and services.

According to Steve Scibetta, healthcare strategic director for Ontario Systems, "Parallon's Business Performance Group utilizes Artiva Healthcare to manage commercial and governmental insurance follow-up across its 200+ member facilities. Every day, Artiva Healthcare drives the workflow and business day of 4,000+ associates. Parallon is very intentional in standardizing workflow and business solutions, and utilizes Version Manager in Artiva Healthcare to deploy business standards and policies across the enterprise. Best practices and recommendations from the field are given diligent consideration and upon approval, the resulting solutions are developed, tested, trained and rolled out to their regional centers. Parallon fully optimizes our technology—they truly 'get it.' They see the potential, and they not only run with it—they kick the door down on the way there!"

Receiving the award on behalf of Parallon was Pam Jordan, director of Collections, AR Core Services. "We value the relationship our colleagues have developed with the team at Ontario Systems. The ongoing support they provide enables Parallon to utilize their solutions to the fullest. We are proud of the team at Parallon and are pleased that they have been recognized for their excellence in using innovative solutions," said Jordan.

Parallon's Business Performance Group is one of four business units of Parallon Business Solutions. The Business Performance Group was formed in 2000 as part of a revenue cycle shared services model for one of the nation's leading healthcare providers. Their ability to deliver results led to an expansion of their capabilities to now offer a wide range of additional

business processes—with end-to-end revenue cycle services, from patient registration to billing, collections and denial management. The Business Performance Group employs approximately 12,000 colleagues in 12 locations across the country.
